

1 day tour itinerary

07:30 a.m.

We meet in Kyiv and check your passport details.

08:00 a.m.

Departure from Kyiv. Our skilled drivers and comfortable vehicles (AC, wi-fi on board, so you are always safe and in touch with the world even in the middle of nowhere) will make the journey safe and sound. You have an opportunity to watch a documentary and get very basic information about the zone. We make a stop at the patrol station, so you can get your morning coffee, buy water and snacks. It's last civilization on our way. It takes around 2 hours to get to the main entrance of the zone –check point “Dytiatky”, where we pass passport control, sign radiation safety rules and a tour starts.

- Nature is taking over the place. Wildlife is truly great in the zone. There are foxes, hares, wild boars, deer, wolves, moose and herds of Przewalski horses and other species. You should keep your eyes open and look around on your way from the checkpoint to the town of Chernobyl. We see wildlife very often, but no 2 headed animals, monsters and zombies.
- Stop in the village of Zalissyia with almost 700 abandoned houses (uninhabited)
- **Discover the town of Chernobyl** – the busiest part of the zone nowadays. Almost 5000 people work and live there in shifts. Radiation background in the town of Chernobyl is lower than in Kyiv.
 - The main square of the town of Chernobyl/memorial “the Wormwood Star”
 - Statue of Lenin (one of not many left in Ukraine)
 - Abandoned Synagogue
 - Chernobyl river port with sunken boats and ships
 - Quick stop at the local shop (if needed)
 - Memorial “To those who saved the world”
 - Exhibition of original, remotely controlled robotic machines used during cleanup)
- **Leliv checkpoint , entrance to the 10km zone**
- **The village of Kopachi** where almost all buildings had been buried into the ground during the decontamination works in 1986. The area is very overgrown now. We stop near the remaining nursery school. Here you can face and measure radiation for the first time and learn more about contamination.
- **We highly recommend you to rent personal dosimeter-radiometer Terra-P for 10\$, so you see the readings any time you want it.**

- **Industrial site of the Chernobyl Nuclear Power Plant**

- Cooling towers of the Chernobyl NPP 3rd generation (pass by)
- Unit 5, unfinished reactor of Chernobyl NPP (pass by)
- Panoramic view of CHNPP
- New Safe Confinement ("Arch") – visitor`s site at 250 m distance
- NPP cooling channel (feeding giant catfish – available May to September)
- Memorial "Life for Life" in front of the main administrative building of NPP
- Prometheus statue, which was evacuated together with Prypiat citizens

13:30-14:00

- **Lunch (included) (vegetarian meal available upon request): Ukrainian cuisine, all products are delivered from Kyiv.**

- **Prypiat – the ghost town**

Time stopped there on April 26th 1986. And you have a unique chance to travel back in time and plunge into the communism era. Our professional guides perfectly know the area and you will explore the town on foot for roughly 2 hours. You may cover the following locations (depends on the weather condition and preference of the group):

- Prypiat welcome sign and decontaminated Red Forest area
- Bridge of death
- Prypiat hospital 126
- Prypiat ferry terminal and riverside café with an amazing stained glass.
- Prypiat town hall –after 1986 – main headquarters for military and liquidators
- Polissya hotel
- Main square of the ghost town
- Palace of culture "Energetic", the biggest entertainment center of Prypiat
- Supermarket building
- Restaurant building
- Bumping cars in the amusement park which has been never opened;
- Iconic Ferris wheel, the most famous spot in the entire Chernobyl zone
- Prypyat stadium "Avangard" which is slowly turning into the forest
- Swimming pool "Azure", which had been in operation until 1996
- Middle school of Prypiat
- Fire station of Prypiat

Please note, that it's officially forbidden to enter buildings in Prypiat as it's unsafe.

- **Top secret military base Chernobyl -2 and Duga OTH Radar**

- Radiation check at 10km zone checkpoint
- Final stop at Chernobyl road sign, last pictures
- Obligatory radiation control at 30km zone checkpoint

18:30 - 20:00

- Arriving back to Kiev

Important! You should be least 18 years old to enter the zone. The permits processing time is about 4 working days! Tour itinerary may change due to weather conditions and upon request of the group!
